“Vision without execution is hallucination.”
– Thomas Edison

MAKING A GENUINE IMPACT AS UC STUDENT REP

Pioneer bi-weekly Council of Advocacy and Leadership (COAL) meetings of the seven student government presidents. Attend as many government, senate, and assembly meetings as possible. Consistently host more open forums for students in order to gain further insight from students.

REMODELING SBI

By having more audits for allocation and accounting fees, and improving communication systems with students, a truly impactful remodeling can happen. Bring the Board of Directors into COAL meetings for better communication.

UBER

I want to unite the seven student governments to draft a letter to President Tripathi urging for Uber to come to campus. Via his strong relations with the governor, this can happen.

THE UB ATHLETIC FEE

Build financial models this summer to bring to the comprehensive fee meeting in October. Support SA’s initiative to support the split of the Athletic and Recreation Fees, but conduct a new survey of current students to see the willingness of what they want to pay. Improve opportunities for the athletic department to interact with real students, especially by improving access for sports clubs.
